

SAYS PRISONER ADMITTED GUILT

Los Angeles Officer Claims McManigal Confessed.

DYNAMITING OF IRON WORKS

Attorney for Accused Man Declares Latter Denies Making Any Confession and That Such Statements are False—John J. McManigal Gives Out Statement Declaring His Innocence and Saying He Has No Fear of the Outcome.

Los Angeles, Cal., April 28.—More light was thrown on Ortle E. McManigal's alleged confession of the dynamiting of the Llewellyn iron works of this city by Robert Brain, under sheriff of this city, who had charge of McManigal in the transcontinental trip just ended. Brain said the prisoner had voluntarily confessed to him while on the train.

According to Mr. Brain, McManigal brought up the subject last Monday morning, the second day out from Chicago, by asking what punishment would be given him if he were to turn state's evidence.

When Attorney Hilton emerged from the jail after a conference with the prisoners he said McManigal absolutely denied in the presence of witnesses that he had made any confession whatsoever and said statements to that effect were "unqualifiedly false."

Mrs. D. H. Ingersoll of San Francisco, in whose lodging house the man she knew as James B. Bryce, who was charged with the actual dynamiting of the Times building here, was taken into the jail to see if she could identify James B. McManigal as Bryce.

District Attorney Fredericks said later that Mrs. Ingersoll had positively identified James B. McManigal as "J. B. Bryce" in the county jail office.

Bryce was indicted by the Los Angeles grand jury.

Job Harriman of Los Angeles and O. N. Hilton of Denver, the attorneys engaged to defend the accused men, were admitted to the jail. Harriman, leaving the jail to reach a telephone, made a short statement to the press to the effect that it was gas and gas only that caused the explosion in the Times building and that he and his assistants were prepared to prove it, regardless of public opinion.

He announced that when they had completed their conference they would make public a statement as to their plans.

Brothers Accused of Murder.

Arthur Veitch, a deputy district attorney, announced definitely in order to set aside conflicting reports that the charge against McManigal is that of dynamiting and that the accusation against the McNamara brothers is murder.

Clarence Darrow, the Chicago attorney who figured prominently in the defense of Mayer, Haywood and Pettibone, has been retained as chief counsel for John and James McNamara and Ortle McManigal, the alleged dynamiters.

Another important identification which officers expect is that of Ortle McManigal as the man who occupied a room at the Hotel Rosslyn here last December, arriving on Dec. 19 and departing on the 26th, the day following the dynamite explosion at the Llewellyn iron works.

Officials say that George Hart, one of the hotel proprietors, is positive McManigal was a guest at his hotel the night of the explosion.

The three men locked in separate cells in the county jail maintain their calm demeanor.

John J. McNamara, secretary treasurer of the International Bridge and Structural Iron Workers' association, gave his first authorized statement as to his arrest to the press. The statement follows:

"To the Brotherhood of Organized Labor in California and the United States:

"In this second attempt to crush and discredit the cause we represent I realize fully the desperation of the enemies of labor arrayed against us, but I am of good heart, for it will fail.

"That I am innocent of any infraction of the law in word or act needs no emphasis from me, for the truth is mighty and will prevail right speedily, and for it I shall contentedly wait.

"I send to all brothers and friends of union labor the world over my earnest and affectionate greetings, with the assurance that there is no villainy or conspiracy possible of which we are afraid.

"I am also confident that it is not asking too much of the public to suspend judgment in these matters until opportunity for full and fair defense has been afforded."

Will Redress Grievances.

St. Paul, April 28.—Public roller towels at the Soldiers' home will be done away with and individual hand towels given each veteran, said Governor Eberhart, as a result of the complaints of the old soldiers. Milk and sugar also probably will be placed on the tables, he said. This will not be decided definitely until further hearings have been given both sides to the controversy.

MAKES CHARGE OF MONOPOLY

Pennsylvanian Creates Sensation in the House.

RESOLUTIONS OF INQUIRY

Representative Difenderfer Alleges Money and Influence Are Being Used to Give Manufacturing Firm Monopoly in Contracts for Shoes for the Army and Navy—Gardner Asks an Investigation.

Washington, April 28.—A sensation was sprung in the house when Representative Gardner of Massachusetts introduced resolutions of inquiry in response to a charge by Representative Difenderfer of Pennsylvania that money and influence were being used to give an Eastern manufacturing concern a monopoly in the contracts for shoes for the army and navy.

Mr. Difenderfer said he could prove his assertion and as a result Mr. Gardner called upon the secretary of war and secretary of the navy for all possible information concerning the shoe contracts.

Mr. Difenderfer interrupted Mr. Gardner in his speech on the free list bill while discussing government contract prices for army shoes.

"Is it not a fact," he asked, "that Hermann & Co. of Boston absolutely control, after freezing out every other competitor in the United States, the manufacture of shoes for the army and navy of the United States?"

Mr. Gardner replied that he had never heard of such a firm.

"I shall be at liberty then in the near future," said Mr. Difenderfer, in response, "to show to the gentlemen that they have absolute control of the shoes manufactured in the country for the army and navy and that they have frozen out competitors that I know of who have lost out and today are bankrupt owing to the fact that this firm of Hermann & Co. have used their influence with the government representatives of the United States, or those in control of the government of the United States have used their influence to place them on the black list, so to speak, and have even gone so far as to give money so that other firms may not be competitors after freezing them out."

IN DOUBT ABOUT MEASURE

Minnesota Republicans in House Are Studying Free List Bill.

Washington, April 28.—Most of the Minnesota Republicans appear to be in an uncertain frame of mind over the Democratic free list bill now pending. Representative Davis is the only one of them who has announced that he will vote for it. Mr. Davis made known his attitude toward the measure in the debate on the Canadian agreement last week.

The other Minnesota Republicans are giving the free list bill careful thought and study. The chances are that Representative Stevens will vote against the bill, although he has not indicated so far just how he will side. Representative Volstead does not believe the bill will benefit the Northern farmer in the slightest degree. However, he may vote for it. Representative Lindbergh is thinking it over. Representative Anderson said that for the present he did not care to say how he would vote.

ATTEMPT TO SHOOT KAISER

Bullets Whistle Over Cabin of the Imperial Yacht.

London, April 28.—A dispatch received from Corfu says that while the Kaiser's yacht Hohenzollern, with the emperor on board, was cruising off that port three rifle shots were fired at it. The bullets whistled over the imperial cabin, according to this report, and caused excitement among the members of his majesty's suite.

At the German embassy it was said every effort was being made to secure particulars of the outrage. There is a feeling there that the firing may have been part of an anarchistic plot.

ANNIHILATE SMALL BAND

Rebels Kill Twenty-nine Out of Thirty-one Regulars.

Mexico City, April 28.—Refusing to surrender or leave the train on which he and his command of thirty soldiers were being brought to the capital a second lieutenant, little more than a boy, engaged in a battle with a force of 400 rebels at Cajones, Guerrero.

At the conclusion of the brief encounter the lieutenant and twenty-eight of the soldiers were dead and the remaining two of his men were prisoners. One of the lieutenant's arms was shot away.

The Yukon Climate.

In the Yukon territory the thermometer ranges during at least five months a year from zero to 70 below.

J. A. GALLINGER.

Nelson and Lodge Also After President Pro Tem. of Senate.

NELSON FOR THE VACANCY

Minnesota Mentioned for President Pro Tem. of Senate.

Washington, April 28.—Senator Nelson is among the Republicans of the senate who have been mentioned in connection with the office of president pro tem. of that body.

A vacancy has been created in the position by the resignation of Senator Frye, who relinquishes it because of failing health.

Senator Nelson, in addition to Senators Lodge and Gallinger, has been mentioned for the honor.

OFFERS AMENDMENTS TO CANADIAN PACT

Senator Nelson Begins His Fight Against Treaty.

Washington, April 28.—Senator Nelson of Minnesota fired the first gun in the battle he is waging against the ratification of the Canadian trade agreement. He introduced a series of amendments which propose that products of the farm imported from Canada shall pay customs duties, instead of being admitted free as provided in the pending agreement.

Rates proposed in the Nelson amendments represent substantial reductions as compared with the rates now levied on articles enumerated under the authority of the Payne-Aldrich law. The reductions range from 25 to 50 per cent.

"My amendments insure protection for the Northwestern farmer against the products of Canada," said Senator Nelson. "I think the rates I propose would be ample to protect the agricultural industry."

The Nelson amendments apply to sixteen items of the Canadian agreement. They embrace live stock, cereals, potatoes, butter and cheese.

WANTS TO ABOLISH SENATE

Berger's Resolution Would Also Do Away With Presidential Veto.

Washington, April 28.—Victor Berger of Milwaukee, the Socialist member of congress, in a resolution introduced in the house, not only proposes to abolish the senate, but aims to strike from the hand of the president the veto power and take from the courts authority to invalidate legislation enacted by the house of representatives.

All this is proposed as an amendment to the Constitution which if petitioned for by 5 per cent of the voters in each state, shall be submitted to a general referendum.

"The senate has run its course," said Mr. Berger, after his threatening document had been dropped into the hopper on the speaker's desk. "It must some day, as with the British house of lords, yield to the popular demand for its reformation or abolition."

COWAN TRIAL IS DRAMATIC

Sensational Incidents Mark the Close of Testimony.

Bismarck, N. D., April 28.—Dramatic incidents marked the conclusion of the introduction of evidence in the John F. Cowan impeachment case, not the least sensational of which was the statement by Senator C. W. Hookway of McHenry county that he was already prepared to cast his vote in the case and that his vote was "not guilty" on each and every one of the charges and specification included in the articles of impeachment against the accused jurist. This statement was made to the court just prior to adjournment.

Kittredge Very Low.

Hot Springs, Ark., April 28.—The condition of former Senator A. B. Kittredge of Sioux Falls offers little hope. The senator rallied slightly, recovering consciousness.

NOBODY WANTS MEXICAN WAR

There Is No Popular Demand For Interference.

IT WAS DIFFERENT IN 1898.

There Was Then a Loud Clamor For Intervention in Behalf of Cuba, Even Congressmen Being in Favor of War. Congressman Adair of Indiana Is the Democratic Bellwether.

By ARTHUR W. DUNN.

Washington, April 28.—[Special.]—The most promising feature of this whole Mexican situation is that there does not appear to be any one in the United States who wants war. Perhaps there are army officers who would be glad to see war because it would bring promotions, but they are not backed by the navy, for there would be nothing for the navy in a war with Mexico.

Back in 1898 there was a demand for a war with Spain. A majority in both houses of congress clamored for it, the sensational newspapers were moving heaven and earth for it, appeals to every human sympathy were uttered for Cuba, and even then those in authority very reluctantly allowed themselves to be forced into the war, which they believed was unjust.

But there is no such demand now. In fact, every person seems to be opposed to war. It is not believed necessary, and the only reason for hostilities will be the protection of American lives and property in Mexico. If there were any persons who believed that the movement of troops to the Rio Grande was popular because it looked warlike they have had their minds disabused, for everywhere there is strong objection to the idea of war.

Not the First Time.

Former Speaker Cannon lays great stress upon the invasion of the rights of the house in the preparation of the Canadian reciprocity bill at the White House, which act invaded the prerogative of the house. But this is not the first time. The Cuban reciprocity bill is a case in point, and Cannon was one of the men who put it through. Cannon does not like the Canadian reciprocity agreement.

There have been other bills prepared by the executive departments which the house has had to take and swallow. In Roosevelt's day they had to say they liked it.

Adair Is the Bellwether.

Congressman Adair of Indiana is the Democratic bellwether in the house. He is supposed to know on which side the party vote is to be cast and to lead off with a loud "aye" or "no."

Adair is on this job all right, for when there is likely to be a roll call he is down in the center aisle, and as soon as his name is called he makes a funnel with his hands and shouts his response so that it can be heard all over the Democratic side. That is the cue for such Democrats as have not been giving careful attention to the matter before the house. On one occasion lately Adair was not on hand. There was an amendment proposed by the Republicans which he favored, but which a majority of his party opposed. He waited until the second roll call before casting his vote.

Ames of Massachusetts is the first name on the Republican side, but as he has shown insurgent tendencies he is not considered a bellwether for that party.

Pension Retrenchment? No.

There has been a suggestion that the Democrats might make a great saving by cutting down the pension rolls and otherwise retrenching on pensions. But they won't do it. There are many Democrats who voted for the Sulloway bill in the last congress which would have added \$45,000,000 to the pension appropriation bill. It would not be surprising to see the Democratic house pass the Sulloway bill or something very like it in the next session.

There are people who have an idea that the payment of pensions is unpopular, that if the government would hunt out and run down all the pension frauds there would be general approval, but such is not the case. No community would cut off a single pensioner, even if it were known that the man never saw service. To cut off the pension might mean that the man would be a charge upon the local government. And so it is in regard to the increase of pensions.

In nearly every community an increase of a pension means that the federal government comes to the rescue of some needy person or family. Pensions mean the distribution of money, for nearly every pension is spent where it is paid.

Means a Loss of Revenue.

Senators and members who have been in demand upon the Chautauqua circuit as lecturers are disgusted enough that there is an extra session of congress, but as there is talk of a lengthy session they become more and more irritable. Men who can get \$200 to \$300 a week and draw their congressional salaries at the same time do not like to be kept in Washington with nothing better to do than listen to talk on the tariff or go to the baseball games. And those Chautauqua fellows belong to a class that do not care much about the national game.

Would Ask Questions or Die.

A woman is never known to advertise for the return of stolen property "and no questions asked."

Labor Attorney and Alleged Dynamiter He May Defend.

BUTTE UNIONS PLAN MEETING

Will Protest Arrest of McNamara and McManigal.

Butte, Mont., April 28.—Under the auspices of the labor unions of Butte, headed by the miners' organization, the parent body of the Western Federation of Miners, a monster mass meeting of Butte citizens will be held two weeks from next Sunday, when the arrest of the McNamaras and McManigal for the Los Angeles Times dynamiting will be denounced in probably the most bitter language yet used in expressing the indignation of labor people.

The mass meeting will be presided over by Mayor Lewis J. Duncan, recently elected on the Socialist ticket, who will condemn the arrests of the iron workers.

INCREASES SIZE OF THE PRESENT BODY

House Passes Congressional Reapportionment Bill.

Washington, April 28.—The house passed the bill to enlarge its membership to 433 and to reapportion congressional districts.

The increase of the size of the house was agreed to by members of both parties, but many Republicans attacked it on the ground that it would make the house more unwieldy.

Progressive Republicans were particularly vigorous in opposing the increase, declaring that if it were not for the demands of those states that would otherwise lose members there would be a general sentiment in favor of keeping the membership at the present size of 391.

MANIAC DIES IN FLAMES

Fatally Wounds Woman and Sets Fire to House.

Linton, N. D., April 28.—Mrs. Frank Zikel, wife of a farmer living near here, was shot and so seriously injured that she died later, when Sylvester Zikel became insane and attempted to kill his brother's wife and her two children. After the injured woman and the children had escaped from the Zikel home the maniac set fire to the house with the supposed intention of cremating every person in it. He was caught in his own trap and was burned to death. Later when the husband, Frank Zikel, arrived home from town he found his wife in a dying condition in the yard, the house completely destroyed and a few pounds of gray bones which marked the last resting place of his brother.

CY YOUNG HAS BRONCHITIS

Condition of Veteran Pitcher Not Regarded as Serious.

Cleveland, April 28.—Denton T. Young, the veteran pitcher of the Cleveland Baseball club, is ill at a hotel here with acute bronchitis. Young's condition is not serious. He probably will be able to leave his room in two weeks, but cannot play ball for a month.

Threats From Black Hand.

Omaha, April 28.—The order of Black Hand men in Omaha now has a press agent. It has written to the local newspapers a statement warning the public to keep away from two restaurants which are doomed to destruction by dynamite. Both morning newspapers received the missives.

PRESIDENT SAYS "NOW OR NEVER"

POPE ACCEPTS RESIGNATION

Archbishop Keane of Dubuque Retires at Age of Seventy-two.

Dubuque, Ia., April 28.—The resignation of Most Rev. J. J. Keane, archbishop of Dubuque, has been formally accepted by Rome and upon the election of his successor the reverend archbishop, who for eleven years has been the head of this archdiocese, will cease to be such.

Official notification of the acceptance by Pius X. of the Dubuque prelate's resignation tendered several months ago was received at the archiepiscopal residence.

Archbishop Keane is in his seventy-second year. He came to Dubuque as the successor of the late Archbishop Hennessey on Sept. 27, 1900.

Hindu Women.

The Hindu holy books forbid a woman to see dancing, hear music, wear jewels, blacken her eyebrows, eat dainty food, sit at a window or view herself in a mirror during the absence of her husband, and allows him to divorce her if she has no sons, injures his property, scolds him, quarrels with another woman or presumes to eat before he has finished his meal.

Bank Damaged by Dynamite.

Chicago, April 28.—A dynamite bomb was exploded in the doorway of the Oak Savings bank, owned by John Devoney, an Italian, tearing a hole one foot square in the iron plated door, breaking all the windows in the four-story building and throwing the occupants of the upper stories out of their beds.

Wilson To Visit West.

Trenton, N. J., April 28.—Governor Wilson will leave here on May 2 for a month's trip in the West. He will visit William J. Bryan in Lincoln, Neb., and will take in Los Angeles, San Francisco, Portland, Ore., and other cities before returning on May 29.

Taft Again Declares for Reciprocity With Canada.

SPEAKS AT PRESS BANQUET

Address the First of a Series Which the Chief Executive Plans to Make to Evoke Public Sentiment in Support of His Policies—Characterizes All Talk of Annexation as "Bosh."

New York, April 28.—Reciprocity with Canada must be adopted now or never and must stand or fall by its own terms. So declared President Taft in an address at the Waldorf-Astoria at the fourth annual banquet of the American Newspaper Publishers' association.

His address was the first of a series in which he plans to evoke public sentiment in support of his policies and he appealed to the company of editors and newspaper owners gathered from the length and breadth of the land to impress in the public mind that reciprocity should stand alone and "ought not to be affected in any regard by other amendments to the tariff law." His recommendations were warmly cheered.

All talk of annexation he characterized as "bosh" and said that the United States has all it can attend to with the territory it is now governing.

He praised the house of representatives for its passage of the agreement, declared that it would not injure the farmer nor any special class, answered in detail the objections that have been raised to reciprocity and begged for at least "a kind of test" to dispel the ghosts, "exhibited to frighten the agricultural classes."

President Taft devoted the greater part of his address to the Canadian reciprocity agreement. On this subject he said in part:

Critical Point Reached.

"I am glad to have the opportunity of speaking to a body which fully represents the most important agencies for the formation of public opinion in this country upon a question which has now reached a critical point in its settlement.

"The treaty provides for free trade in all agricultural products; and in rough lumber down to the point of planning. It reduces the duties on secondary food products by a very substantial percentage and it makes such reductions on a number of manufactured articles that those engaged in making them have assured me that the reductions will substantially increase the already large Canadian demand for them.

"We tendered to the Canadian commissioners absolute free trade in all products of either country, manufactured or natural, but the Canadian commissioners did not feel justified in going so far.

RESOLUTIONS OF INQUIRY

Representative Diefenderfer Alleges Money and Influence Are Being Used to Give Manufacturing Firm Monopoly in Contracts for Shoes for the Army and Navy—Gardner Asks an Investigation.

Washington, April 28.—A sensation was sprung in the house when Representative Gardner of Massachusetts introduced resolutions of inquiry in response to a charge by Representative Diefenderfer of Pennsylvania that money and influence were being used to give an Eastern manufacturing concern a monopoly in the contracts for shoes for the army and navy.

Nelson and Lodge Also After President Pro Tem. of Senate.

NELSON FOR THE VACANCY

Minnesota Mentioned for President Pro Tem of Senate.

Washington, April 28.—Senator Nelson is among the Republicans of the senate who have been mentioned in connection with the office of president pro tem of that body.

A vacancy has been created in the position by the resignation of Senator Frye, who relinquishes it because of failing health.

Senator Nelson, in addition to Senators Lodge and Gallinger, has been mentioned for the honor.

OFFERS AMENDMENTS
TO CANADIAN PACTSenator Nelson Begins His
Fight Against Treaty.

Washington, April 28.—Senator Nelson of Minnesota fired the first gun in the battle he is waging against the ratification of the Canadian trade agreement. He introduced a series of amendments which propose that products of the farm imported from Canada shall pay customs duties, instead of being admitted free as provided in the pending agreement.

Rates proposed in the Nelson amendments represent substantial reductions as compared with the rates now levied on articles enumerated under the authority of the Payne-Aldrich law. The reductions range from 25 to 50 per cent.

"My amendments insure protection for the Northwestern farmer against the products of Canada," said Senator Nelson. "I think the rates I propose would be ample to protect the agricultural industry."

The Nelson amendments apply to sixteen items of the Canadian agreement. They embrace live stock, cereals, potatoes, butter and cheese.

WANTS TO ABOLISH SENATE

Berger's Resolution Would Also Do Away With Presidential Veto.

Washington, April 28.—Victor Berger of Milwaukee, the Socialist member of congress, in a resolution introduced in the house, not only proposes to abolish the senate, but aims to strike from the hand of the president the veto power and take from the courts authority to invalidate legislation enacted by the house of representatives.

All this is proposed as an amendment to the Constitution which is petitioned for by 5 per cent of the voters in each state, shall be submitted to a general referendum.

"The senate has run its course," said Mr. Berger, after his threatening document had been dropped into the hopper on the speaker's desk. "It must some day, as with the British house of lords, yield to the popular demand for its reformation or abolition."

COWAN TRIAL IS DRAMATIC

Sensational Incidents Mark the Close of Testimony.

Bismarck, N. D., April 28.—Dramatic incidents marked the conclusion of the introduction of evidence in the John F. Cowan impeachment case, the least sensational of which was the statement by Senator C. W. Hookway of McIntire county that he was already prepared to cast his vote in the case and that his vote was "not guilty" on each and every one of the charges and specification included in the articles of impeachment against the accused jurist. This statement was made to the court just prior to adjournment.

Kittredge Very Low.

Hot Springs, Ark., April 28.—The condition of former Senator A. B. Kittredge of Sioux Falls offers little hope. The senator rallied slightly, recovering consciousness.

NOBODY WANTS
MEXICAN WAR

There Is No Popular Demand For Interference.

IT WAS DIFFERENT IN 1898.

There Was Then a Loud Clamor For Intervention In Behalf of Cuba, Even Congressmen Being In Favor of War. Congressman Adair of Indiana Is the Democratic Bellwether.

By ARTHUR W. DUNN.

Washington, April 28.—[Special.]—The most promising feature of this whole Mexican situation is that there does not appear to be any one in the United States who wants war. Perhaps there are army officers who would be glad to see war because it would bring promotions, but they are not backed by the navy, for there would be nothing for the navy in a war with Mexico.

Back in 1898 there was a demand for a war with Spain. A majority in both houses of congress clamored for it, the sensational newspapers were moving heaven and earth for appeals to every human sympathy were uttered for Cuba, and even those in authority very reluctantly allowed themselves to be forced into the war, which they believed was unjust.

But there is no such demand now. In fact, every person seems to be opposed to war. It is not popular to hostilities will be the protection of American lives and property in Mexico. If there were any persons who believed that the movement of troops to the Rio Grande was popular because it looked disabused, they have had their minds disabused, for everywhere there is strong objection to the idea of war.

Not the First Time.

Former Speaker Cannon lays great stress upon the invasion of the rights of the house in the preparation of the Canadian reciprocity bill at the White House, which act invaded the prerogative of the house. But this is not the first time. The Cuban reciprocity bill is a case in point, and Cannon was one of the men who put it through. Cannon does not like the Canadian reciprocity agreement.

There have been other bills prepared by the executive departments which the house has had to take and swallow. In Roosevelt's day they had to say they liked it.

Adair Is the Bellwether.

Congressman Adair of Indiana is the Democratic bellwether in the house. He is supposed to know on which side the party vote is to be cast and to lead off with a loud "aye" or "no."

Adair is on this job all right, for when there is likely to be a roll call he is down in the center aisle, and as soon as his name is called he makes a funnel with his hands and shouts his response so that it can be heard all over the Democratic side. That is the cue for such Democrats as have not been giving careful attention to the matter before the house. On one occasion lately Adair was not on hand. There was an amendment proposed by the Republicans which he favored, but which a majority of his party opposed. He waited until the second roll call before casting his vote.

Ames of Massachusetts is the first name on the Republican side, but as he has shown insurgent tendencies he is not considered a bellwether for that party.

Pension Retrenchment? No.

There has been a suggestion that the Democrats might make a great saving by cutting down the pension rolls and otherwise retrenching on pensions. But they won't do it. There are many Democrats who voted for the Sully bill in the last congress which would have added \$45,000,000 to the pension appropriation bill. It would not be surprising to see the Democratic house pass the Sully bill or something very like it in the next session.

There are people who have an idea that the payment of pensions is unpopular, that if the government would hunt out and run down all the pension frauds there would be general approval, but such is not the case. No community would cut off a single pensioner, even if it were known that the man never saw service. To cut off the pension might mean that the man would be a charge upon the local government. And so it is in regard to the increase of pensions.

In nearly every community an increase of a pension means that the federal government comes to the rescue of some needy person or family. Pensions mean the distribution of money, for nearly every pension is spent where it is paid.

Means a Loss of Revenue.

Senators and members who have been in demand upon the Chautauqua circuit as lecturers are disgusted enough that there is an extra session of congress, but as there is talk of a lengthy session they become more and more irritable. Men who can get \$200 to \$300 a week and draw their congressional salaries at the same time do not like to be kept in Washington with nothing better to do than listen to talk on the tariff or go to the baseball games. And those Chautauqua fellows belong to a class that do not care much about the national game.

BUTTE UNIONS PLAN MEETING

Will Protest Arrest of McNamara and McManigal.

Butte, Mont., April 28.—Under the auspices of the labor unions of Butte, headed by the miners' organization, the parent body of the Western Federation of Miners, a monster mass meeting of Butte citizens will be held two weeks from next Sunday, when the arrest of the McNamara and McManigal for the Los Angeles Times dynamiting will be denounced in probably the most bitter language yet used in expressing the indignation of labor people.

The mass meeting will be presided over by Mayor Lewis J. Duncan, recently elected on the Socialist ticket, who will condemn the arrests of the iron workers.

INCREASES SIZE OF
THE PRESENT BODYHouse Passes Congressional
Reapportionment Bill.

Washington, April 28.—The house passed the bill to enlarge its membership to 433 and to reapportion congressional districts.

The increase of the size of the house was agreed to by members of both parties, but many Republicans attacked it on the ground that it would make the house more unwieldy.

Progressive Republicans were particularly vigorous in opposing the increase, declaring that if it were not for the demands of those states that would otherwise lose members there would be a general sentiment in favor of keeping the membership at the present size of 391.

MANIAC DIES IN FLAMES

Fatally Wounds Woman and Sets Fire to House.

Linton, N. D., April 28.—Mrs. Frank Zikel, wife of a farmer living near here, was shot and so seriously injured that she died later, when Sylvester Zikel became insane and attempted to kill his brother's wife and her two children. After the injured woman and the children had escaped from the Zikel home the maniac set fire to the house with the supposed intention of cremating every person in it. He was caught in his own trap and was burned to death. Later when the husband, Frank Zikel, arrived home from town he found his wife in a dying condition in the yard, the house completely destroyed and a few pounds of gray bones which marked the last resting place of his brother.

CY YOUNG HAS BRONCHITIS

Condition of Veteran Pitcher Not Regarded as Serious.

Cleveland, April 28.—Denton T. Young, the veteran pitcher of the Cleveland Baseball club, is ill at a hotel here with acute bronchitis. Young's condition is not serious. He probably will be able to leave his room in two weeks, but cannot play ball for a month.

Threats From Black Hand.

Omaha, April 28.—The order of Black Hand men in Omaha now has a press agent. It has written to the local newspapers a statement warning the public to keep away from two restaurants which are doomed to destruction by dynamite. Both morning newspapers received the missives.

POPE ACCEPTS RESIGNATION

Archbishop Keane of Dubuque Retires at Age of Seventy-two.

Dubuque, Ia., April 28.—The resignation of Most Rev. J. J. Keane, archbishop of Dubuque, has been formally accepted by Rome and upon the election of his successor the reverend archbishop, who for eleven years has been the head of this archdiocese, will cease to be such.

Official notification of the acceptance by Pius X. of the Dubuque prelate's resignation tendered several months ago was received at the archiepiscopal residence.

Archbishop Keane is in his seventy-second year. He came to Dubuque as the successor of the late Archbishop Hennessey on Sept. 27, 1900.

Bank Damaged by Dynamite.

Chicago, April 28.—A dynamite bomb was exploded in the doorway of the Oak Savings bank, owned by John Devoney, an Italian, tearing a hole one foot square in the iron plated door, breaking all the windows in the four-story building and throwing the occupants of the upper stories out of their beds.

Wilson To Visit West.

Trenton, N. J., April 28.—Governor Wilson will leave here on May 2 for a month's trip in the West. He will visit William J. Bryan in Lincoln, Neb., and will take in Los Angeles, San Francisco, Portland, Ore., and other cities before returning on May 29.

Taft Again Declares for Reciprocity With Canada.

SPEAKS AT PRESS BANQUET

Address the First of a Series Which the Chief Executive Plans to Make to Evoke Public Sentiment in Support of His Policies—Characterizes All Talk of Annexation as "Bosh."

New York, April 28.—Reciprocity with Canada must be adopted now or never and must stand or fall by its own terms. So declared President Taft in an address at the Waldorf-Astoria at the fourth annual banquet of the American Newspaper Publishers' association.

His address was the first of a series in which he plans to evoke public sentiment in support of his policies and he appealed to the company of editors and newspaper owners gathered from the length and breadth of the land to impress in the public mind that reciprocity should stand alone and "ought not to be affected in any regard by other amendments to the tariff law." His recommendations were warmly cheered.

All talk of annexation he characterized as "bosh" and said that the United States has all it can attend to with the territory it is now governing.

He praised the house of representatives for its passage of the agreement, declared that it would not injure the farmer nor any special class, answered in detail the objections that have been raised to reciprocity and begged for at least "a kind of test" to dispel the ghosts, "exhibited to frighten the agricultural classes."

President Taft devoted the greater part of his address to the Canadian reciprocity agreement. On this subject he said in part:

Critical Point Reached.

"I am glad to have the opportunity of speaking to a body which fully represents the most important agencies for the formation of public opinion in this country upon a question which has now reached a critical point in its settlement.

"The treaty provides for free trade in all agricultural products; and in rough lumber down to the point of planing. It reduces the duties on secondary food products by a very substantial percentage and it makes such reductions on a number of manufactured articles that those engaged in making them have assured me that the reductions will substantially increase the already large Canadian demand for them.

"We tendered to the Canadian commissioners absolute free trade in all products of either country, manufactured or natural, but the Canadian commissioners did not feel justified in going so far.

"It is only reasonable to infer, therefore, that with respect

and in 1909 it reached the marvelous figures of \$194,722,000. The number of automobile factories increased 57 to 316 in these ten years. Michigan is the center of the great industry, the output in 1909 being \$80,000,000, with Ohio second, \$29,000,000, Indiana \$24,000,000, New York \$20,000,000 and all other states \$41,000,000. Michigan turns out nearly three times as many as any other state, and twice as many as all the states outside of Ohio, Indiana and New York, and nearly one-half the total amount of the entire country. The great lead gained by Michigan is due to the fact that it was formerly the headquarters for the manufacture of buggies, and had the trained workmen when the new industry appeared.

Water Colors.

Pigments have been used from the earliest times and are now used by all savages for decorative purposes. But the paint used in Babylon and Nineveh and in Pompeii was composed of pigments mixed, not with oil, but with water to which had been added a little glue, egg albumen or perhaps some times casein, which is albuminous matter from milk or the gluten from cereal grains. Glue, however, which was well known to the ancient Egyptians, was the most used binding material. Such paints are now known as fresco paints or water colors.

How "Abide With Me" Was Written.

At the age of fifty-four Lyte found himself doomed to die of consumption, and in sorrow at having to leave his task unfinished he prayed that at the least it might be granted to him to write something which would live to the glory of God when he was dead. Then on the last evening he ever spent at Brixham, after preaching his farewell sermon, he took pen and as the sun was setting over the ships that lay in the harbor "Abide With Me" was written. Next morning he started for the Riviera and there died a month later.—London Telegraph.

Bits of the Philosophy of Life

The little buds just appearing on the trees and shrubs will soon develop and stop even the rays of the sun—shield the tired and thirsty from Old Sol's scorching darts. Save the buds.

The pennies which we scatter and waste in the Early Spring of Life are Fortune's buds—care for they will one day protect us from heat, thirst and perhaps hunger. Save them.

and in 1909 it reached the marvelous figures of \$194,722,000. The number of automobile factories increased 57 to 316 in these ten years. Michigan is the center of the great industry, the output in 1909 being \$80,000,000, with Ohio second, \$29,000,000, Indiana \$24,000,000, New York \$20,000,000 and all other states \$41,000,000. Michigan turns out nearly three times as many as any other state, and twice as many as all the states outside of Ohio, Indiana and New York, and nearly one-half the total amount of the entire country. The great lead gained by Michigan is due to the fact that it was formerly the headquarters for the manufacture of buggies, and had the trained workmen when the new industry appeared.

AUTOMOBILE CLUB IS ORGANIZED

Enthusiastic Meeting of Owners and Drivers at Brainerd Auto Co. Last Night

CHARTER LIST OF 21 MEMBERS

Pres., J. M. Elder; Secy-Treas., Dr. Erickson; 1st Vice-Pres., Dr. R. J. Sewall of Crosby

Brainerd and neighboring automobile owners and drivers had an enthusiastic meeting at the Brainerd Auto Co. garage last night and formally completed the organization of an automobile club to be known as the Crow Wing County Automobile Association.

J. R. Smith was selected as temporary chairman. The charter list was opened and the following affixed their names to the rolls: Messrs. Dr. Nicholson, John Ernster, A. L. Hoffman, J. R. Smith, Halladay, Sanborn, J. P. Ernster, F. A. Farrar, Dr. J. A. Thabes, W. H. Cleary, Dennis, Dr. W. A. Erickson, J. A. Ernster, E. C. Bane, Dr. R. J. Sewall, of Crosby, C. W. Hoffman, C. H. Paine, J. M. Elder, Culver Adams, of Deerwood, Henry Rosko and Chas. Renslow.

The election of officers resulted as follows:
President—James M. Elder.
First Vice President—Dr. R. J. Sewall, of Crosby.
Second Vice President—J. P. Ernster.

Secretary and Treasurer—Dr. W. A. Erickson.

On motion the chair appointed a temporary committee on membership embracing Messrs. Cleary, Hoffman, Culver Adams, Dr. R. J. Sewall, J. R. Smith and Henry Rosko.

The committee appointed at the preliminary meeting recently held submitted its draft of the proposed by-laws of the organization. The by-laws of the state automobile association were adopted as they stood, but for the present the local club will not join the state organization.

The annual membership fee was placed at \$2 per year. The chair appointed two members, Messrs. Farrar and Ernster, to co-operate with the secretary and with him go over the by-laws and change them so as to comply with local conditions.

A letter was read from David C. Abeles, secretary and treasurer of the St. Cloud Automobile club in which he stated he was very glad a club had been formed in Brainerd and wishing them much success.

"I hope you will be able to build good roads from your town to Little Falls," said Mr. Abeles, "so that our club can come up and see you and you can do likewise. In regard to sending you a copy of by-laws, I am sorry to state I cannot do so, as I have none on hand. When we organized we simply met at the Commercial club rooms, selected a chairman who called the meeting to order, and we elected a president, vice-president, second vice-president, treasurer and secretary, also a committee on good roads, a committee on runs and touring and a soliciting committee for membership. Our dues are two dollars per year, one dollar going to the state automobile association and one dollar to the club."

After a very pleasant session the new Crow Wing County Automobile Association adjourned to meet again next Thursday evening. In the meantime effort will be made to get every automobile owner and driver of the county on the membership rolls. The larger the club grows, the more its influence will increase and the greater will be the benefits accruing from a membership in the same.

NEXT MEETING IN DULUTH

Northern Minnesota Development Association Will Consider Important Matter

Carl Zappfe is in receipt of the following communication from W. R. Mackenzie, secretary, which is of interest:

"The next meeting of the Northern Minnesota Development Association will take place June 1st and 2nd in Duluth.

It is very desirable that at this meeting your association will be fully represented. The executive committee believe that the failure of a reapportionment measure at the last session of the legislature should be thoroughly explained and an early start made for the 1913 session of the legislature, not alone as regards reapportionment, but for other vital matters affecting our Northern countries.

Among the subjects which it is expected will be handled by different speakers will be "State Department of Public Domain" and "Commission Plan for State Government."

The St. Louis County Club, which is a member of our organization, and the commercial club of Duluth, are making every effort to make this meeting a success. We must have the co-operation, however, of every county in our organization and we trust that you will see to it that your association is fully represented.

Your association is entitled to five delegates and we would like very much if you would send alternates."

Jensen-Swelland

James Jensen and Miss Bertha Swelland were united in marriage at high noon today at the parsonage, 802 South Seventh, of the Seventh Street Norwegian Lutheran church, the pastor, Rev. M. L. Hostager officiating.

The bride was becomingly attired in white and her attendant, Miss Annie Johnson, wore a dress of the same color. The groom's best man was Peter Johnson. After a short wedding trip to Bagley the happy couple will go to housekeeping on the farm of the groom situated near South Long lake. The best wishes of their many friends are extended to them on this happy occasion.

At the Grand

The Grand has an excellent program for the balance of the week. The Four College Girls are the feature. Their act is very clever and entertaining, their quartette work being exceptionally good, also their solos. All told they present a very attractive, refined vaudeville number. The pictures are very interesting and instructive. "The Lilly of the Tenements" tells a story of East Side New York. "Too Much Mother-in-Law" is a laugh provoking comedy that keeps one grinning until the finish. For a solid hour of entertainment the Grand is the place. There will be a special matinee Saturday for the ladies and children.

ELDER'S MODEL STOCK FARM

Has One of the Finest Herds of Holsteins in the County at His Farm East of City

FARM CONTAINS 666 ACRES

Barns, Silo, Milk House and Grounds Arranged in the Most Approved and Modern Style

A party of Brainerd people recently accepted the invitation of J. M. Elder to visit his stock farm east of the city and two automobiles made the trip bearing Messrs. Elder, Dr. J. L. Camp, W. S. Moscrip, of North St. Paul, the prominent breeder of Holstein cattle; George D. LaBar, R. R. Wise, R. J. Hartley, F. H. Gruenhagen and the writer.

A quick run over good country roads brought the autos of Messrs. Elder and LaBar to the farm and under Mr. Elder's guidance an inspection was made of the grounds. The first place visited was the barn, 64 feet square, housing the cattle and Holstein pedigree bull whose ancestry embraces cows which gave 24 pounds or more butter in a week and maintained this at three successive tests.

Attached to the barn is the circular cement silo eighteen feet in diameter and about 39 feet in height in which is stored the corn and stalks, the food supply of the cattle during the winter months. Of interest in the barn is the cement feeding trough running the length of the building and having also a walk of cement so arranged that one may walk from the silo with the feed and drop it into the troughs without disturbing the cattle feeding on both sides. In a little stall near by was the pride of the farm, a handsome, soft coated, Holstein bull calf.

In the ample yard near the barn the visitors were shown the herd of 25 Holsteins and their black and white coats, glossy and clean, revealed the constant care and attention given them by the caretaker, Supt. John Thomas, who has been with Mr. Elder for five years.

The herd was of peculiar significance to Mr. Moscrip, as he is the proprietor of the breeding farm which supplied the nucleus of this standard herd to Mr. Elder. He closely viewed each animal and was most gratified to see how well the climate and conditions of Crow Wing county agreed with his cattle.

Dr. Camp was also very much interested as the cattle on his Mission farm are also Holsteins bought originally from the same station of W. S. Moscrip farm at North St. Paul.

In a pasture adjoining were seen 200 breeding Shropshire ewes and 180 lambs and climate and soil conditions showed that this county is an ideal place to rear and grow sheep. Mr. Elder has also purchased a number of Duroc Jersey pigs and they are in thriving condition.

The animals, sheep, cows and pigs, showed the visitors conclusively that this is the county to raise them successfully and that it pays to buy good stock in preference to scrub material. One by one the farmers of the county are learning that a scrub animal eats as much and sometimes more than a blooded one and that the returns from scrub stock are immeasurably less. If any farmer doubts this let him see Mr. Elder and accompany him to the farm.

The farm is well provided with horses, there being 15 head. There are eight work horses, heavy, sure-footed animals, and seven colts.

Other buildings on the farm include a sheep house 24 by 300 feet in size, a machinery shed and granary 80 by 60 feet, a hay shed 136 feet

long and holding about 138 tons of hay, a windmill at the barn and another near the residence, a milk house 16 by 29 feet and the two story residence occupied by the superintendent.

The milk house is very well arranged. In the first part is a wash room containing also a stove. The next division has the DeLaval separator, the milk can, scales and the butter making machinery. Then comes the refrigerator section and back of it is the ice house housing the summer's supply of ice.

The farm has an acreage of 666 acres which will this year be planted in oats, corn and potatoes and with the splendid weather conditions prevailing so far an abundant crop is assured the Elder farm. The fencing attracts the attention of a visitor for Mr. Elder used iron tubes and attached his wire netting to it. Two miles of this kind of fence were added to the farm last year and all the fencing there shows by its present condition that an all metal fence is most desirable.

The farm is clean and well kept. Its chief products, milk, cream and butter find a ready sale at the Northern Pacific railway sanatorium at Brainerd, which institution has made a contract with Mr. Elder for the purchase of all its milk and cream.

Hammerstad-Lind

In the presence of numerous relatives and friends of the contracting parties Haakon Hammerstad and Miss Irma Lydia Lind, the daughter of Mr. and Mrs. August Lind were united in marriage last evening at the home of the bride's parents, 619 South Tenth street, the ceremony being performed by Rev. M. L. Hostager, pastor of the Seventh Street Norwegian Lutheran church.

The house was beautifully decorated with cut flowers, ferns and smilax. In the parlor was formed a bower of ferns and palms and it was in this lovely nook under a wealth of floral decorations that the ceremony was performed, the short and impressive ring service being used. Mrs. C. Hougstad, wife of the pastor of the Norwegian-Danish Lutheran church, played the wedding march. After the ceremony, Rev. C. W. Boquist, pastor of the Swedish Mission church, addressed a few words of advice to the newly married couple and voiced the congratulations of the large audience.

The bride was attired in a handsome gown of blue silk and carried a bouquet of bride roses. Her attendant was her sister, Miss Esther Lind, gowned in white silk and also carrying a bouquet of flowers. The groom's best man was Ernest Lind, a brother of the bride.

The guests partook of a bountiful luncheon, the dining room being presided over by four young ladies, the Misses Sigrid Headman, Mary Headman, Marie Opsahl and Annie Anderson.

The happy couple were the recipients of many valuable and useful presents. They will leave on Saturday evening for North Yakima, Wash., where Mr. Hammerstad has purchased land and where they will settle and make their future home. The best wishes of their many friends accompany them to their abode where all that is happy, peaceful and prosperous in this life may be showered on them.

An Effort to Explain.

"Why are we told not to look a gift horse in the mouth?"
"I suppose," replied the man who has to pay the feed bills, "it's because looking in a horse's mouth is calculated to remind you of his appetite."—Washington Star.

INSPECT THE RANGE

Prominent Members of the Milwaukee Blast Furnace Co. Visits Cuyuna Iron Range

Escorted by J. M. Elder and Carl Zappfe two gentlemen were given their first view of the Cuyuna range. They were Jno. Thomas of Milwaukee, Wis., and Will Aubrey Thomas, of Niles, Ohio, both being deeply interested in the Milwaukee Blast Furnace.

Will Aubrey Thomas was formerly congressman of the Ohio district so brilliantly represented by the late President William McKinley. The district has been affectionately designated the McKinley district.

The Messrs. Thomas were most favorably impressed with the activity apparent on the range and commented on the fact that the Cuyuna range was lively notwithstanding the apparent depression in the iron business.

In Mr. Elder's car the party left Brainerd at nine o'clock this morning, passed through Deerwood, visited the Kennedy mine at Cuyuna, Crosby and the near by shafts, Iron-ton and the workings in the neighborhood and returned to Brainerd at one o'clock this afternoon. The Messrs. Thomas returned to their homes this afternoon.

ATTRACTIVE HOMES

GOOD PAINT PUTS THE "FINISHING TOUCH" ON YOUR HOME.

Good Paint serves the house in the same way clothing serves our bodies. It makes our homes attractive, cheerful, wholesome; it protects them from wind and weather.

Good Paint, Blood's Paint, lends an air of refinement, adds an artistic charm to our homes while affording them every protection Good Paint can. It does this at a smaller yearly cost than other paints. The way it is made makes it wear longer and look better. That's the chief reason why we sell and recommend it.

AUTOMOBILE CLUB IS ORGANIZED

Enthusiastic Meeting of Owners and Drivers at Brainerd Auto Co. Last Night

CHARTER LIST OF 21 MEMBERS

Pres. J. M. Elder; Secy-Treas., Dr. Erickson; 1st Vice-Pres., Dr. R. J. Sewall of Crosby

Brainerd and neighboring automobile owners and drivers had an enthusiastic meeting at the Brainerd Auto Co. garage last night and formally completed the organization of an automobile club to be known as the Crow Wing County Automobile Association.

J. R. Smith was selected as temporary chairman. The charter list was opened and the following affixed their names to the rolls: Messrs. Dr. Nicholson, John Ernster, A. L. Hoffman, J. R. Smith, Halladay, Sanborn, J. P. Ernster, F. A. Farrar, Dr. J. A. Thabes, W. H. Cleary, Dennis, Dr. W. A. Erickson, J. A. Ernster, E. C. Bane, Dr. R. J. Sewall, of Crosby, C. W. Hoffman, C. H. Paine, J. M. Elder, Culver Adams, of Deerwood, Henry Rosko and Chas. Renslow.

The election of officers resulted as follows:

President—James M. Elder.
First Vice President—Dr. R. J. Sewall, of Crosby.
Second Vice President—J. P. Ernster.

Secretary and Treasurer—Dr. W. A. Erickson.

On motion the chair appointed a temporary committee on membership embracing Messrs. Cleary, Hoffman, Culver Adams, Dr. R. J. Sewall, J. R. Smith and Henry Rosko.

The committee appointed at the preliminary meeting recently held submitted its draft of the proposed by-laws of the organization. The by-laws of the state automobile association were adopted as they stood, but for the present the local club will not join the state organization.

The annual membership fee was placed at \$2 per year. The chair appointed two members, Messrs. Farrar and Ernster, to co-operate with the secretary and with him go over the by-laws and change them so as to comply with local conditions.

A letter was read from David C. Abeles, secretary and treasurer of the St. Cloud Automobile club in which he stated he was very glad a club had been formed in Brainerd and wishing them much success.

"I hope you will be able to build good roads from your town to Little Falls," said Mr. Abeles, "so that our club can come up and see you and you can do likewise. In regard to sending you a copy of by-laws, I am sorry to state I cannot do so, as I have none on hand. When we organized we simply met at the Commercial club rooms, selected a chairman who called the meeting to order, and we elected a president, vice-president, second vice-president, treasurer and secretary, also a committee on good roads, a committee on runs and touring and a soliciting committee for membership. Our dues are two dollars per year, one dollar going to the state automobile association and one dollar to the club."

After a very pleasant session the new Crow Wing County Automobile Association adjourned to meet again next Thursday evening. In the meantime effort will be made to get every automobile owner and driver of the county on the membership rolls. The larger the club grows, the more its influence will increase and the greater will be the benefits accruing from a membership in the same.

NEXT MEETING IN DULUTH

Northern Minnesota Development Association Will Consider Important Matter

Carl Zappfe is in receipt of the following communication from W. R. Mackenzie, secretary, which is of interest:

"The next meeting of the Northern Minnesota Development Association will take place June 1st and 2nd in Duluth.

It is very desirable that at this meeting your association will be fully represented. The executive committee believe that the failure of a reapportionment measure at the last session of the legislature should be thoroughly explained and an early start made for the 1913 session of the legislature, not alone as regards reapportionment, but for other vital matters affecting our Northern countries.

Among the subjects which it is expected will be handled by different speakers will be "State Department of Public Domain" and "Commission Plan for State Government."

The St. Louis County Club, which is a member of our organization, and the commercial club of Duluth, are making every effort to make this meeting a success. We must have the co-operation, however, of every county in our organization and we trust that you will see to it that your association is fully represented.

Your association is entitled to five delegates and we would like very much if you would send alternates."

Jensen-Swelland

James Jensen and Miss Bertha Swelland were united in marriage at high noon today at the parsonage, 802 South Seventh, of the Seventh Street Norwegian Lutheran church, the pastor, Rev. M. L. Hostager officiating.

The bride was becomingly attired in white and her attendant, Miss Annie Johnson, wore a dress of the same color. The groom's best man was Peter Johnson. After a short wedding trip to Bagley the happy couple will go to housekeeping on the farm of the groom situated near South Long lake. The best wishes of their many friends are extended to them on this happy occasion.

At the Grand

The Grand has an excellent program for the balance of the week. The Four College Girls are the feature. Their act is very clever and entertaining, their quartette work being exceptionally good, also their solos. All told they present a very attractive, refined vaudeville number. The pictures are very interesting and instructive. "The Lily of the Tenements" tells a story of East Side New York. "Too Much Mother-in-Law" is a laugh provoking comedy that keeps one grinning until the finish. For a solid hour of entertainment the Grand is the place. There will be a special matinee Saturday for the ladies and children.

ELDER'S MODEL STOCK FARM

Has One of the Finest Herds of Holsteins in the County at His Farm East of City

FARM CONTAINS 666 ACRES

Barns, Silo, Milk House and Grounds Arranged in the Most Approved and Modern Style

A party of Brainerd people recently accepted the invitation of J. M. Elder to visit his stock farm east of the city and two automobiles made the trip bearing Messrs. Elder, Dr. J. L. Camp, W. S. Moscrip, of North St. Paul, the prominent breeder of Holstein cattle; George D. LaBar, R. R. Wise, R. J. Hartley, F. H. Gruenhagen and the writer.

A quick run over good country roads brought the autos of Messrs. Elder and LaBar to the farm and under Mr. Elder's guidance an inspection was made of the grounds. The first place visited was the barn, 64 feet square, housing the cattle and Holstein pedigree bull whose ancestry embraces cows which gave 24 pounds or more butter in a week and maintained this at three successive tests.

Attached to the barn is the circular cement silo eighteen feet in diameter and about 39 feet in height in which is stored the corn and stalks, the food supply of the cattle during the winter months. Of interest in the barn is the cement feeding trough running the length of the building and having also a walk of cement so arranged that one may walk from the silo with the feed and drop it into the troughs without disturbing the cattle feeding on both sides. In a little stall near by was the pride of the farm, a handsome, soft coated, Holstein bull calf.

In the ample yard near the barn the visitors were shown the herd of 25 Holsteins and their black and white coats, glossy and clean, revealed the constant care and attention given them by the caretaker, Supt. John Thomas, who has been with Mr. Elder for five years.

The herd was of peculiar significance to Mr. Moscrip, as he is the proprietor of the breeding farm which supplied the nucleus of this standard herd to Mr. Elder. He closely viewed each animal and was most gratified to see how well the climate and conditions of Crow Wing county agreed with his cattle.

Dr. Camp was also very much interested as the cattle on his Mission farm are also Holsteins bought originally from the same station of W. S. Moscrip farm at North St. Paul.

In a pasture adjoining were seen 200 breeding Shropshire ewes and 180 lambs and climate and soil conditions showed that this county is an ideal place to rear and grow sheep. Mr. Elder has also purchased a number of Duroc Jersey pigs and they are in thriving condition.

The animals, sheep, cows and pigs, showed the visitors conclusively that this is the county to raise them successfully and that it pays to buy good stock in preference to scrub material. One by one the farmers of the county are learning that a scrub animal eats as much and sometimes more than a blooded one and that the returns from scrub stock are immeasurably less. If any farmer doubts this let him see Mr. Elder and accompany him to the farm.

The farm is well provided with horses, there being 15 head. There are eight work horses, heavy, sure-footed animals, and seven colts.

Other buildings on the farm include a sheep house 24 by 300 feet in size, a machinery shed and granary 80 by 60 feet, a hay shed 136 feet

long and holding about 138 tons of hay, a windmill at the barn and another near the residence, a milk house 16 by 29 feet and the two story residence occupied by the superintendent.

The milk house is very well arranged. In the first part is a wash room containing also a stove. The next division has the DeLaval separator, the milk can, scales and the butter making machinery. Then comes the refrigerator section and back of it is the ice house housing the summer's supply of ice.

The farm has an acreage of 666 acres which will this year be planted in oats, corn and potatoes and with the splendid weather conditions prevailing so far an abundant crop is assured the Elder farm. The fencing attracts the attention of a visitor for Mr. Elder used iron tubes and attached his wire netting to it. Two miles of this kind of fence were added to the farm last year and all the fencing there shows by its present condition that an all metal fence is most desirable.

The farm is clean and well kept. Its chief products, milk, cream and butter find a ready sale at the Northern Pacific railway sanitarium at Brainerd, which institution has made a contract with Mr. Elder for the purchase of all its milk and cream.

Hammerstad-Lind

In the presence of numerous relatives and friends of the contracting parties Haakon Hammerstad and Miss Irma Lydia Lind, the daughter of Mr. and Mrs. August Lind were united in marriage last evening at the home of the bride's parents, 619 South Tenth street, the ceremony being performed by Rev. M. L. Hostager, pastor of the Seventh Street Norwegian Lutheran church.

The house was beautifully decorated with cut flowers, ferns and smilax. In the parlor was formed a bower of ferns and palms and it was in this lovely nook under a wealth of floral decorations that the ceremony was performed, the short and impressive ring service being used. Mrs. C. Hougstad, wife of the pastor of the Norwegian-Danish Lutheran church, played the wedding march. After the ceremony, Rev. C. W. Boquist, pastor of the Swedish Mission church, addressed a few words of advice to the newly married couple and voiced the congratulations of the large audience.

The bride was attired in a handsome gown of blue silk and carried a bouquet of bride roses. Her attendant was her sister, Miss Esther Lind, gowned in white silk and also carrying a bouquet of flowers. The groom's best man was Ernest Lind, a brother of the bride.

The guests partook of a bountiful luncheon, the dining room being presided over by four young ladies, the Misses Sigrid Headman, Mary Headman, Marie Opsahl and Annie Anderson.

The happy couple were the recipients of many valuable and useful presents. They will leave on Saturday evening for North Yakima, Wash., where Mr. Hammerstad has purchased land and where they will settle and make their future home. The best wishes of their many friends accompany them to their abode where all that is happy, peaceful and prosperous in this life may be showered on them.

An Effort to Explain.

"Why are we told not to look a gift horse in the mouth?" "I suppose," replied the man who has to pay the feed bill, "it's because looking in a horse's mouth is calculated to remind you of his appetite."—Washington Star.

INSPECT THE RANGE

Prominent Members of the Milwaukee Blast Furnace Co. Visits Cuyuna Iron Range

Escorted by J. M. Elder and Carl Zappfe two gentlemen were given their first view of the Cuyuna range. They were Jno. Thomas of Milwaukee, Wis., and Will Aubrey Thomas, of Niles, Ohio, both being deeply interested in the Milwaukee Blast Furnace.

Will Aubrey Thomas was formerly congressman of the Ohio district so brilliantly represented by the late President William McKinley. The district has been affectionately designated the McKinley district.

The Messrs Thomas were most favorably impressed with the activity apparent on the range and commented on the fact that the Cuyuna range was lively notwithstanding the apparent depression in the iron business.

In Mr. Elder's car the party left Brainerd at nine o'clock this morning, passed through Deerwood, visited the Kennedy mine at Cuyuna, Crosby and the near by shafts, Iron-ton and the workings in the neighborhood and returned to Brainerd at one o'clock this afternoon. The Messrs. Thomas returned to their homes this afternoon.

The Governor's Paradise.

Any English governess may do worse than go to Majorca if the case mentioned by Mrs. Mary Stuart Boyd in "The Fortunate Isles" can be taken as typical. "She will not get a large salary," she says, "for money has a higher value in Majorca than in Britain, but she will be treated like a princess. I know of one case where a Palma family, who had engaged an English governess, went to the trouble and expense of having a bedroom specially decorated and furnished for her, after a high art chamber pictured in the 'Studio' that the expected guest might feel more at home than if her room had been fitted up in the native fashion."

Not on Earth.

A life insurance agent met an easy looking individual the other day, and after a few preliminary remarks about the weather out came the well known little black book.

"Let me see," remarked the agent, turning the leaves of the book. "Your age is so and so, and I can fix you up with the real thing at 50 cents a week. The policy becomes operative immediately, and one day after your death our company will pay you \$1,000. It is—"

"Hold on just a minute," smilingly interjected the victim. "Where in the deuce is the paymaster of your company located?" — Philadelphia Telegraph.

Sentiment Or Business?

On Which Basis Do YOU Advertise?

Some men buy advertising space in a paper because the paper tells that "it deserves their support," not because the space will produce results.

Then they charge the amount up to their advertising appropriation.

An advertising appropriation is the seed of the modern business, properly sown and cultivated it will multiply a hundred fold.

So that each cent taken from the advertising appropriation robs the advertiser not of one cent, but of a potential dollar.

Be charitable, not with the seed, but out of the abundance of the harvest! Next time a paper approaches you with an appeal for your "support"—subscribe for the paper out of your private purse if you like and have it sent to a friend, but don't buy alleged "advertising" space and deduct the cost from the amount you can afford to spend in real advertising.

Business and sentiment are oil and water—they don't mix. The heavy lidded poppies luxuriate over the business-graves of hundreds who have refused to accept this truism.

And remember—every time you "buy" 10 cents worth of space in a worthless advertising medium you are throwing nine dollars and ninety cents into the Mississippi river.

That isn't even charity—it's just foolishness!

Cause For Speed.

"Mr. Buizen is at the edge of a town with some gear trouble," says the assistant, turning from the telephone. "He wants us to send out there and fix the machine for him."

"All right, but we needn't hurry. He has paid for the machine," says the agent.

"But he says he is whiling away the time reading advertisements of other makes."

"Tell the repair crew to disregard the speed laws and get out there immediately."—Judge.

Here Are Facts We Want You to Prove at Our Risk.

Marvelous as it may seem, Rexall "93" Hair Tonic has grown hair on heads that were once bald. Of course, in none of these cases were the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

Rexall "93" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet necessity, is delicately perfumed, and will not gum or permanently stain the hair.

We want you to get a bottle of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair, and in every way give entire satisfaction, simply come back and tell us, and without question or formality we will hand back to you every penny you paid us for it. Some of the Girls in "The Isle of Spice" at Opera House Monday, May 1st

The Governess' Paradise.
Any English governess may do worse than go to Majorca if the case mentioned by Mrs. Mary Stuart Boyd in "The Fortunate Isles" can be taken as typical. "She will not get a large salary," she says, "for money has a higher value in Majorca than in Britain, but she will be treated like a princess. I know of one case where a Palma family, who had engaged an English governess, went to the trouble and expense of having a bedroom specially decorated and furnished for her, after a high art chamber pictured in the 'Studio,' that the expected guest might feel more at home than if her room had been fitted up in the native fashion."

Not on Earth.
A life insurance agent met an easy looking individual the other day, and after a few preliminary remarks about the weather out came the well known little black book.
"Let me see," remarked the agent, turning the leaves of the book. "Your age is so and so, and I can fix you up with the real thing at 50 cents a week. The policy becomes operative immediately, and one day after your death our company will pay you \$1,000. It is—"
"Hold on just a minute," smilingly interjected the victim. "Where in the deuce is the paymaster of your company located?" — Philadelphia Telegraph.

An Impossibility.
Patience—Did you ever try counting ten before speaking? Patience—Yes; I tried it once, but I can't do it.

When our hopes break let our patience hold.—The S. Fuller

SQUARE DEAL SALE

PRESENT

THE AUTOMOBILE IS AN IMPROVEMENT OVER THE OX-CART, AND THE FLYING MACHINE IS A WONDERFUL INVENTION, BUT NOTHING EVER HAS OR EVER WILL BEAT THE "SQUARE DEAL." OUR PAST RECORD FOR FAIR DEALING IS AN OPEN BOOK; OUR PRESENT SUCCESS IS DUE TO THE CONFIDENCE THIS COMMUNITY HAS IN US AND IN OUR ABILITY. IN THE FUTURE WE SHALL NOT CHANGE OUR WAY OF DOING BUSINESS, BUT AS IN THE PAST WE SHALL GIVE TO THOSE WHO GIVE US THEIR CONFIDENCE A "SQUARE DEAL."

Sentiment Or Business?

On Which Basis Do YOU Advertise?

Some men buy advertising space in a paper because the paper tells that "it deserves their support," not because the space will produce results.

Then they charge the amount up to their advertising appropriation.

An advertising appropriation is the seed of the modern business, properly sown and cultivated it will multiply a hundred fold.

So that each cent taken from the advertising appropriation robs the advertiser not of one cent, but of a potential dollar.

Be charitable, not with the seed, but out of the abundance of the harvest! Next time a paper approaches you with an appeal for your "support"—subscribe for the paper out of your private purse if you like and have it sent to a friend, but don't buy alleged "advertising" space and deduct the cost from the amount you can afford to spend in real advertising.

Business and sentiment are oil and water—they don't mix. The heavy lidded poppies luxuriate over the business-graves of hundreds who have refused to accept this truism.

And remember—every time you "buy" 10 cents worth of space in a worthless advertising medium you are throwing nine dollars and ninety cents into the Mississippi river.

That isn't even charity—it's just foolishness!

Cause For Speed.

"Mr. Buizen is at the edge of a town with some gear trouble," says the assistant, turning from the telephone. "He wants us to send out there and fix the machine for him."

"All right, but we needn't hurry. He has paid for the machine," says the agent.

"But he says he is willing away the time reading advertisements of other makes."

"Tell the repair crew to disregard the speed laws and get out there immediately,"—Judge.

Dyed Furs.
Dyed furs will retain their color longer than skins which have not been dyed.

IT GROWS HAIR.

Here Are Facts We Want You to Prove at Our Risk.

Marvelous as it may seem, Rexall "33" Hair Tonic has grown hair on heads that were once bald. Of course, in none of these cases were the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

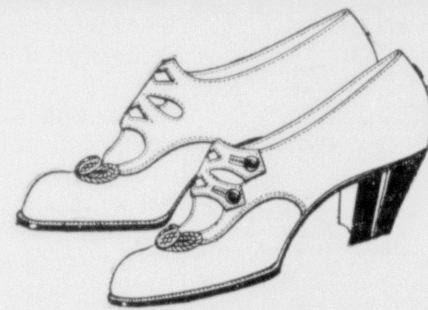

Rexall "33" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet necessity, is delicately perfumed, and will not gum or permanently stain the hair.

We want you to get a bottle of Rexall "33" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair, and in every way give entire satisfaction, simply come back and tell us, and without question or formality we will hand back to you every penny you paid us for it. Two sizes, 50c. and \$1.00. Sold only at our store—The Rexall Store.
